

# MEET.ON

Meetings online, anywhere, anytime.

# Conditions change, things evolve.

While the world forces us to get used to the new “normal”, our business life, meetings, conversations, ways of doing business, how we come together are changing.

MEET.ON

A background photograph of a person's hands holding a smartphone. The phone screen displays a complex network graph with white dots (nodes) and connecting lines (edges), symbolizing connectivity and data exchange. The hands are positioned centrally, with the fingers supporting the device from below.

# VIRTUAL EVENTS, REAL BENEFITS

All kinds of events such as conferences, congresses, meetings, seminars, workshops, conventions, dealers and launch meetings are transformed into virtual formats that are safe, uninterrupted having the same functionality as the reality with many advantages added thanks to virtual environment.

**1-Large congresses:** Well-attended panels, simultaneous conferences and webinars, highly participated congresses, multi-functional and interactive platform.

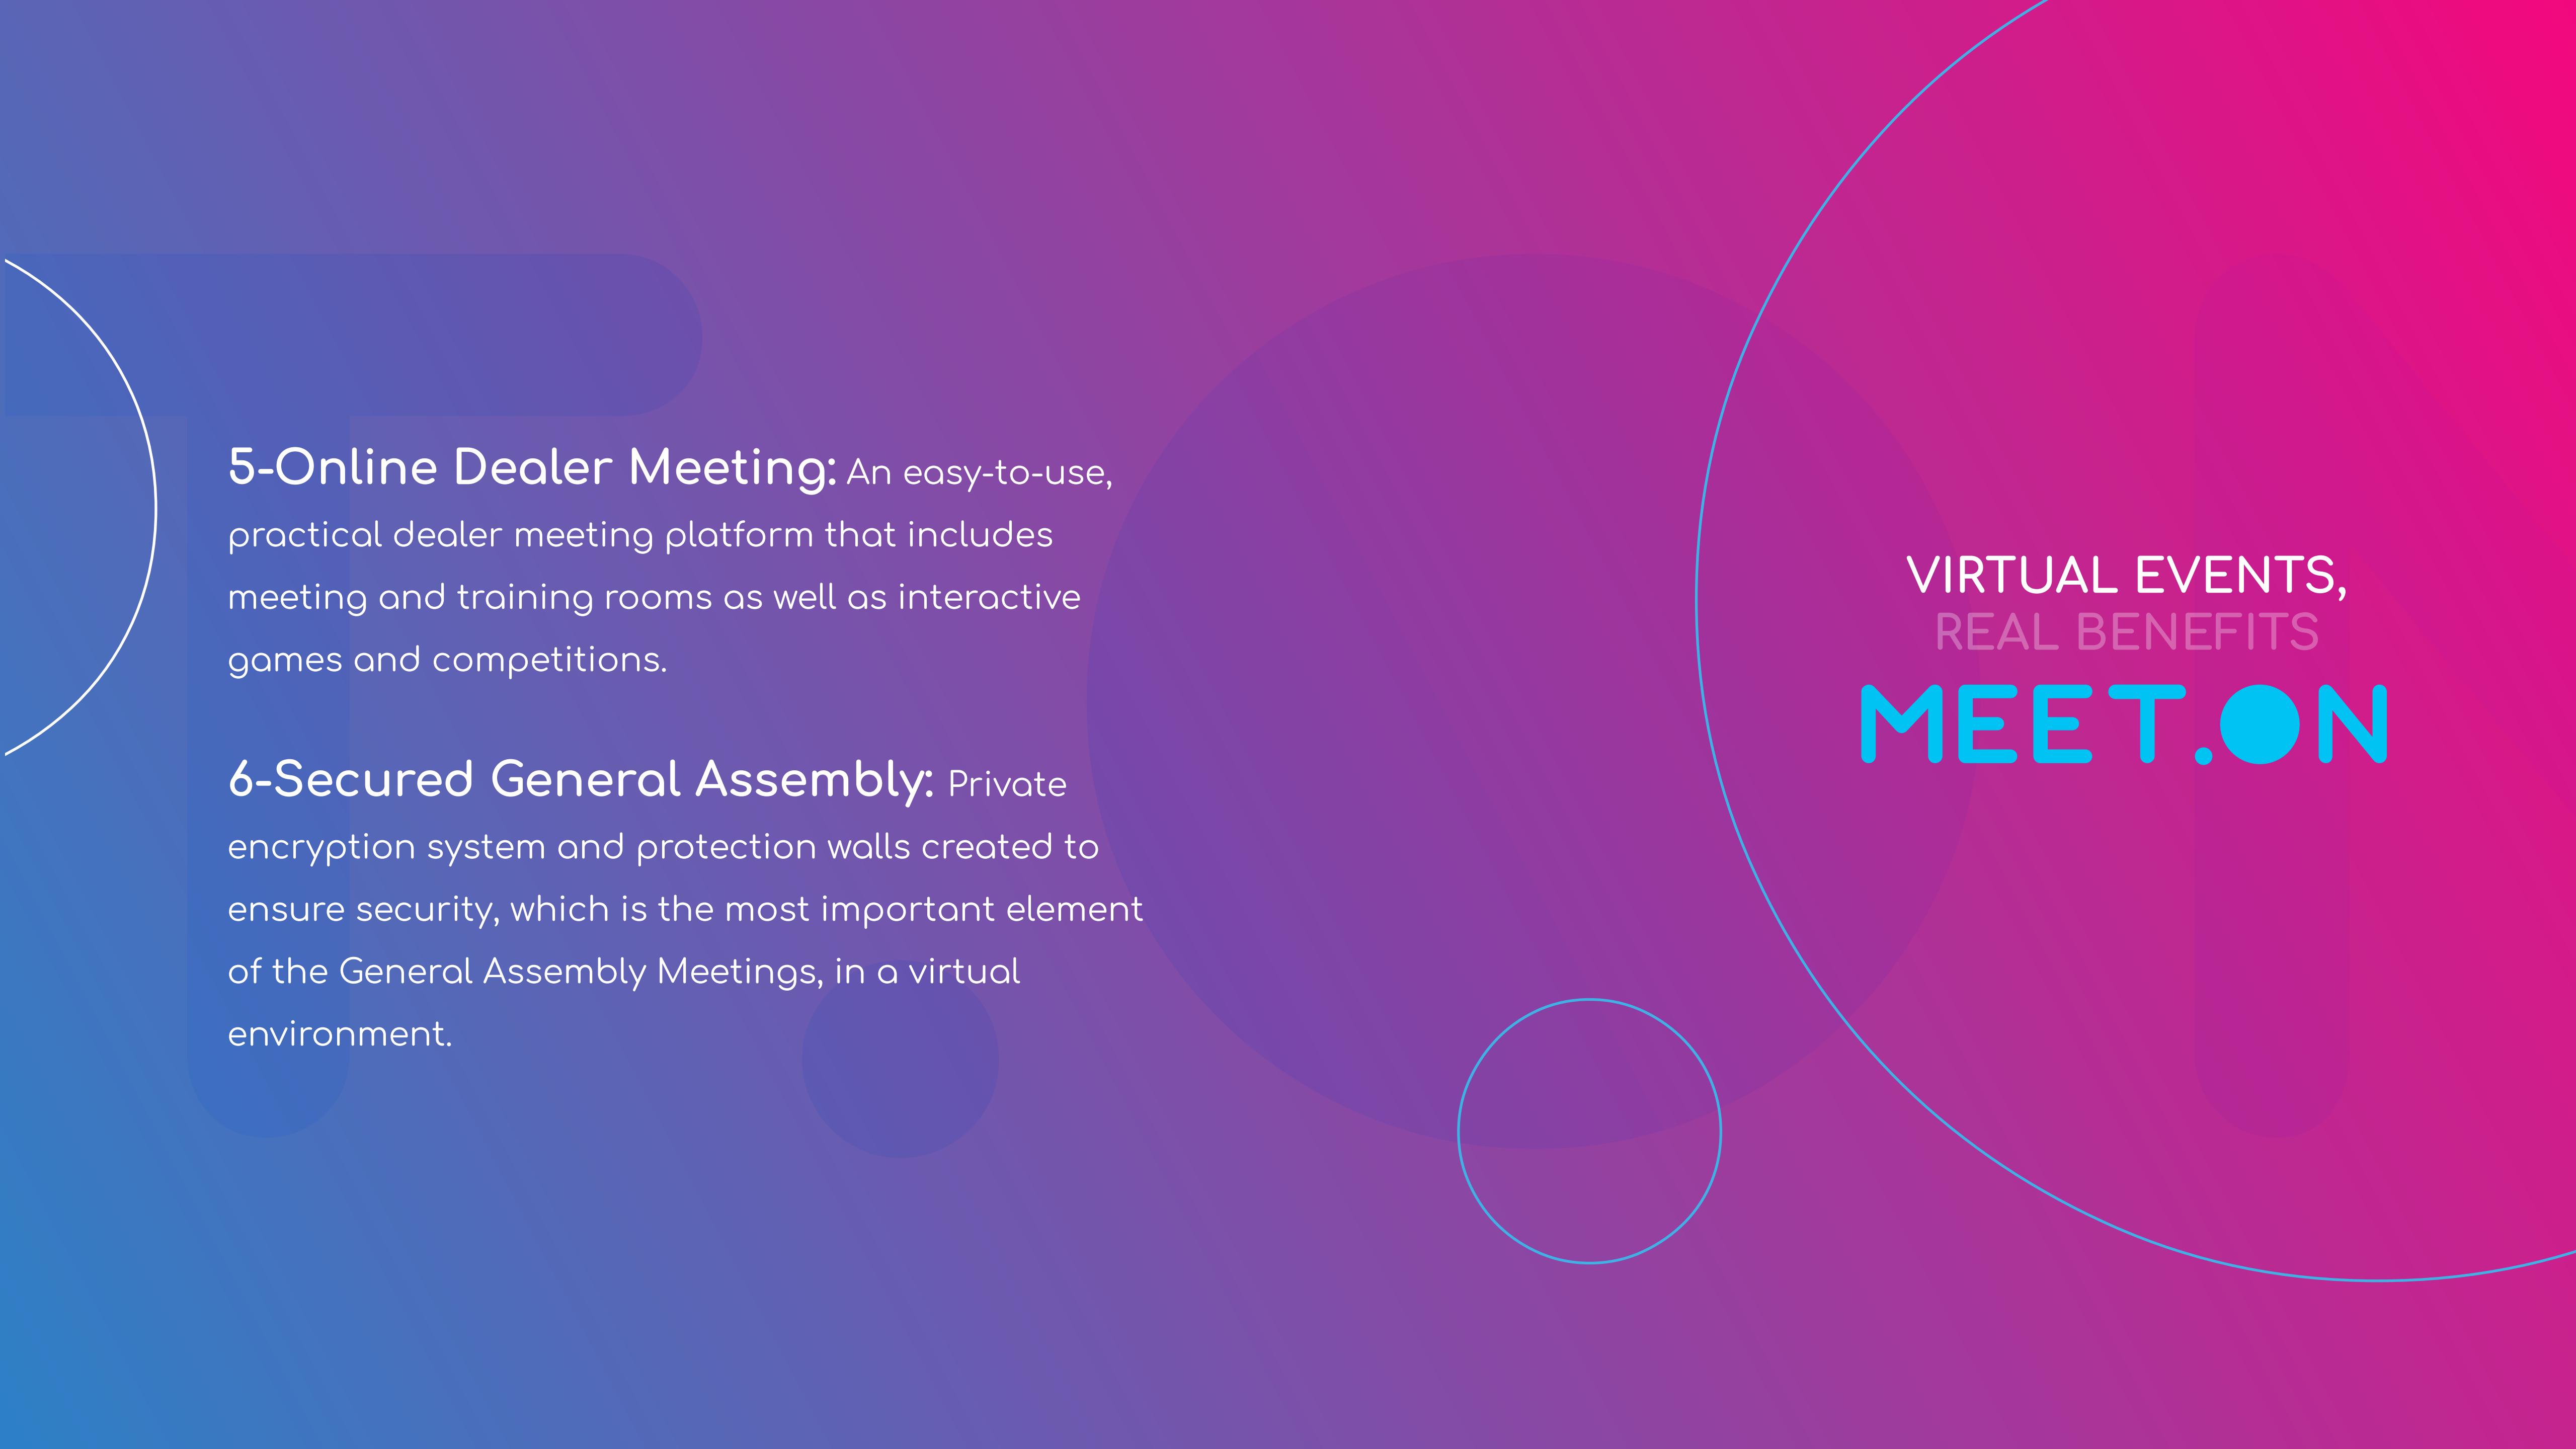

**2-Webinar:** Providing conferences, training and chat programs, presentations and promotions with audience interaction and streaming video.

**3-Virtual Convention:** The opportunity to walk around the stands of the participating companies in the virtual fair area, meet with customer representatives via live video connection, networking opportunities in the virtual world with the entire industry.

**4-3D Virtual Event (VR):** Virtual event platform enabling the participants to feel themselves as participants in the event area by creating the highest level of interaction possible in a digital environment.

VIRTUAL EVENTS,  
REAL BENEFITS

**MEET.ON**

VIRTUAL EVENTS,  
REAL BENEFITS

**MEET.ON**

**5-Online Dealer Meeting:** An easy-to-use, practical dealer meeting platform that includes meeting and training rooms as well as interactive games and competitions.

**6-Secured General Assembly:** Private encryption system and protection walls created to ensure security, which is the most important element of the General Assembly Meetings, in a virtual environment.

## **1. Saving Time**

Ability to overcome obstacles such as travelling, accommodation and transportation and participate in the event with just one click.

## **2. Minimal Production Cost**

Reduced event costs thanks to low production costs in the online system.

## **3-The opportunity of high number of visitors**

High number of visitors regardless of the capacity limitations of the halls.

## **4-Networking Advantage**

People you want to reach in a real event but you cannot are only a click away.

## **5-Wide Range of Speakers**

Opportunity to reach many valuable speakers who are stuck with the barrier of distance, cost and time.

## **6-Low Logistics Costs**

Offering the budget that excludes many logistics costs such as space, food-travel, personnel, and transportation.

VIRTUAL EVENTS,  
REAL BENEFITS

**MEET.ON**

What is the difference between standard video conferencing programs and MEET-ON?

- Live-stream managed from a single center.
- Sound on / off with moderator control, the possibility to diversify the connection with graphs and images.
- Broadcasts that are not affected by busy internet connection.
- Possibility of broadcasting simultaneously via social media platforms optimizing the broadcast quality.
- Ability to broadcast without any participation limit
- **100% secure**

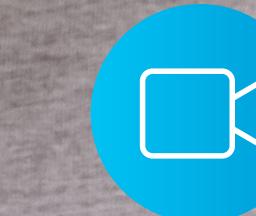

# There is a difference

- + Audio and video connection in multi-speaker panels
- + One-to-one video and audio calls
- + Presentation screen
- + Previously recorded video sharing
- + Simultaneously broadcasting in many halls

## BROADCAST

## VIEWER INTERACTION

- + Audience feedback and questions thanks to the chat system
- + Instant survey and results during the event
- + Voting during the event

## ADDITIONAL BROADCAST MODULES

- + Identity information for speakers as subtitles
- + Simultaneous translation systems
- + Broadcast recording, edits of recorded videos
- + YouTube and other social media integration

## NETWORKING MODULE

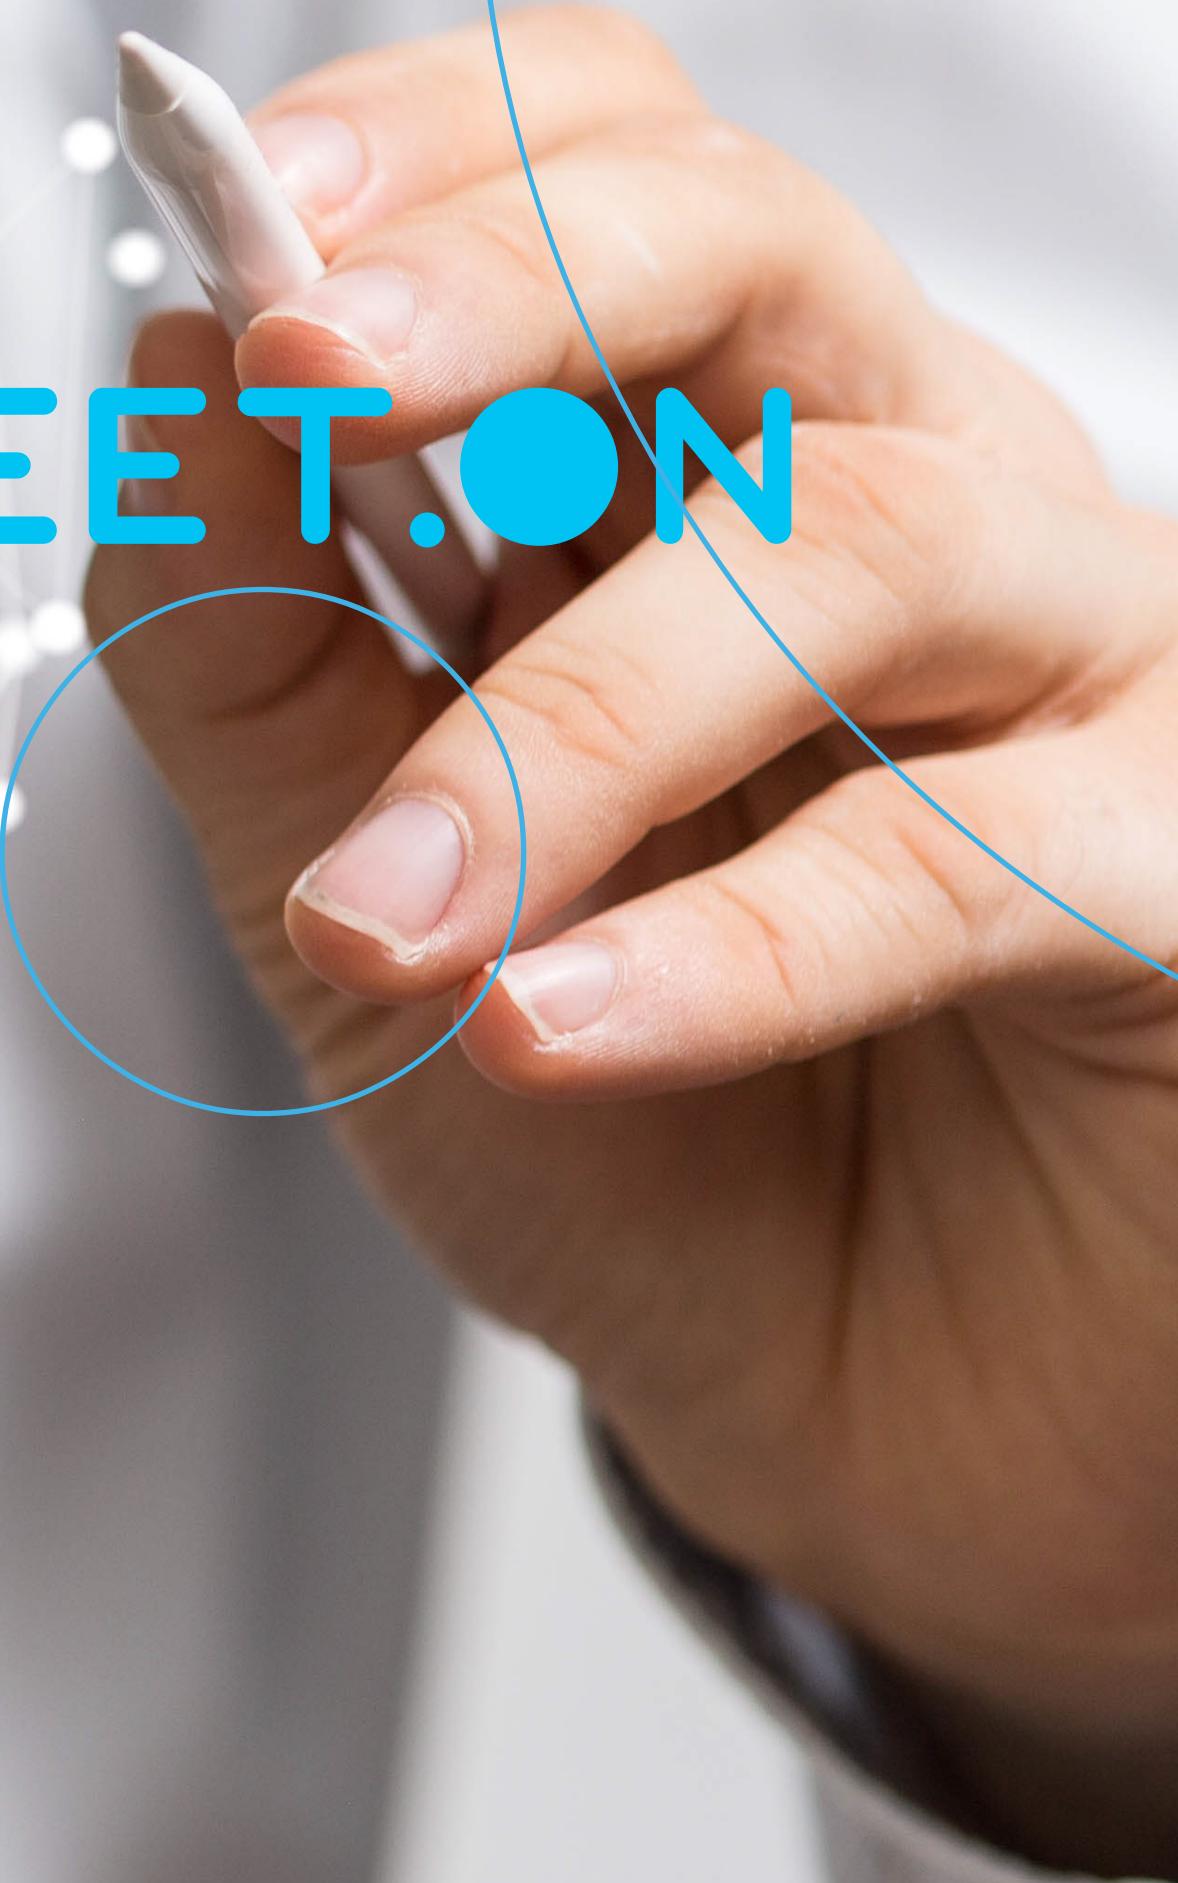

- + Thanks to the “Networking Module”, participants can meet by asking for appointments.

# HOW YOU LOOK MATTERS

Broadcasts that can be customized with charts and graphs to be exclusively designed for brands.

- Presentation Visualization
- Corporate Films
- VTR Design
- Animations
- Subtitles
- Designing a Visual Space for Sponsors

MEET.ON

MEET.ON

# BROADCASTING 360°

Opportunity to create streams that will be produced in 360° studios to be created with virtual studio techniques, supported by augmented reality technologies, and can be watched with YouTube 360° and VR glasses.

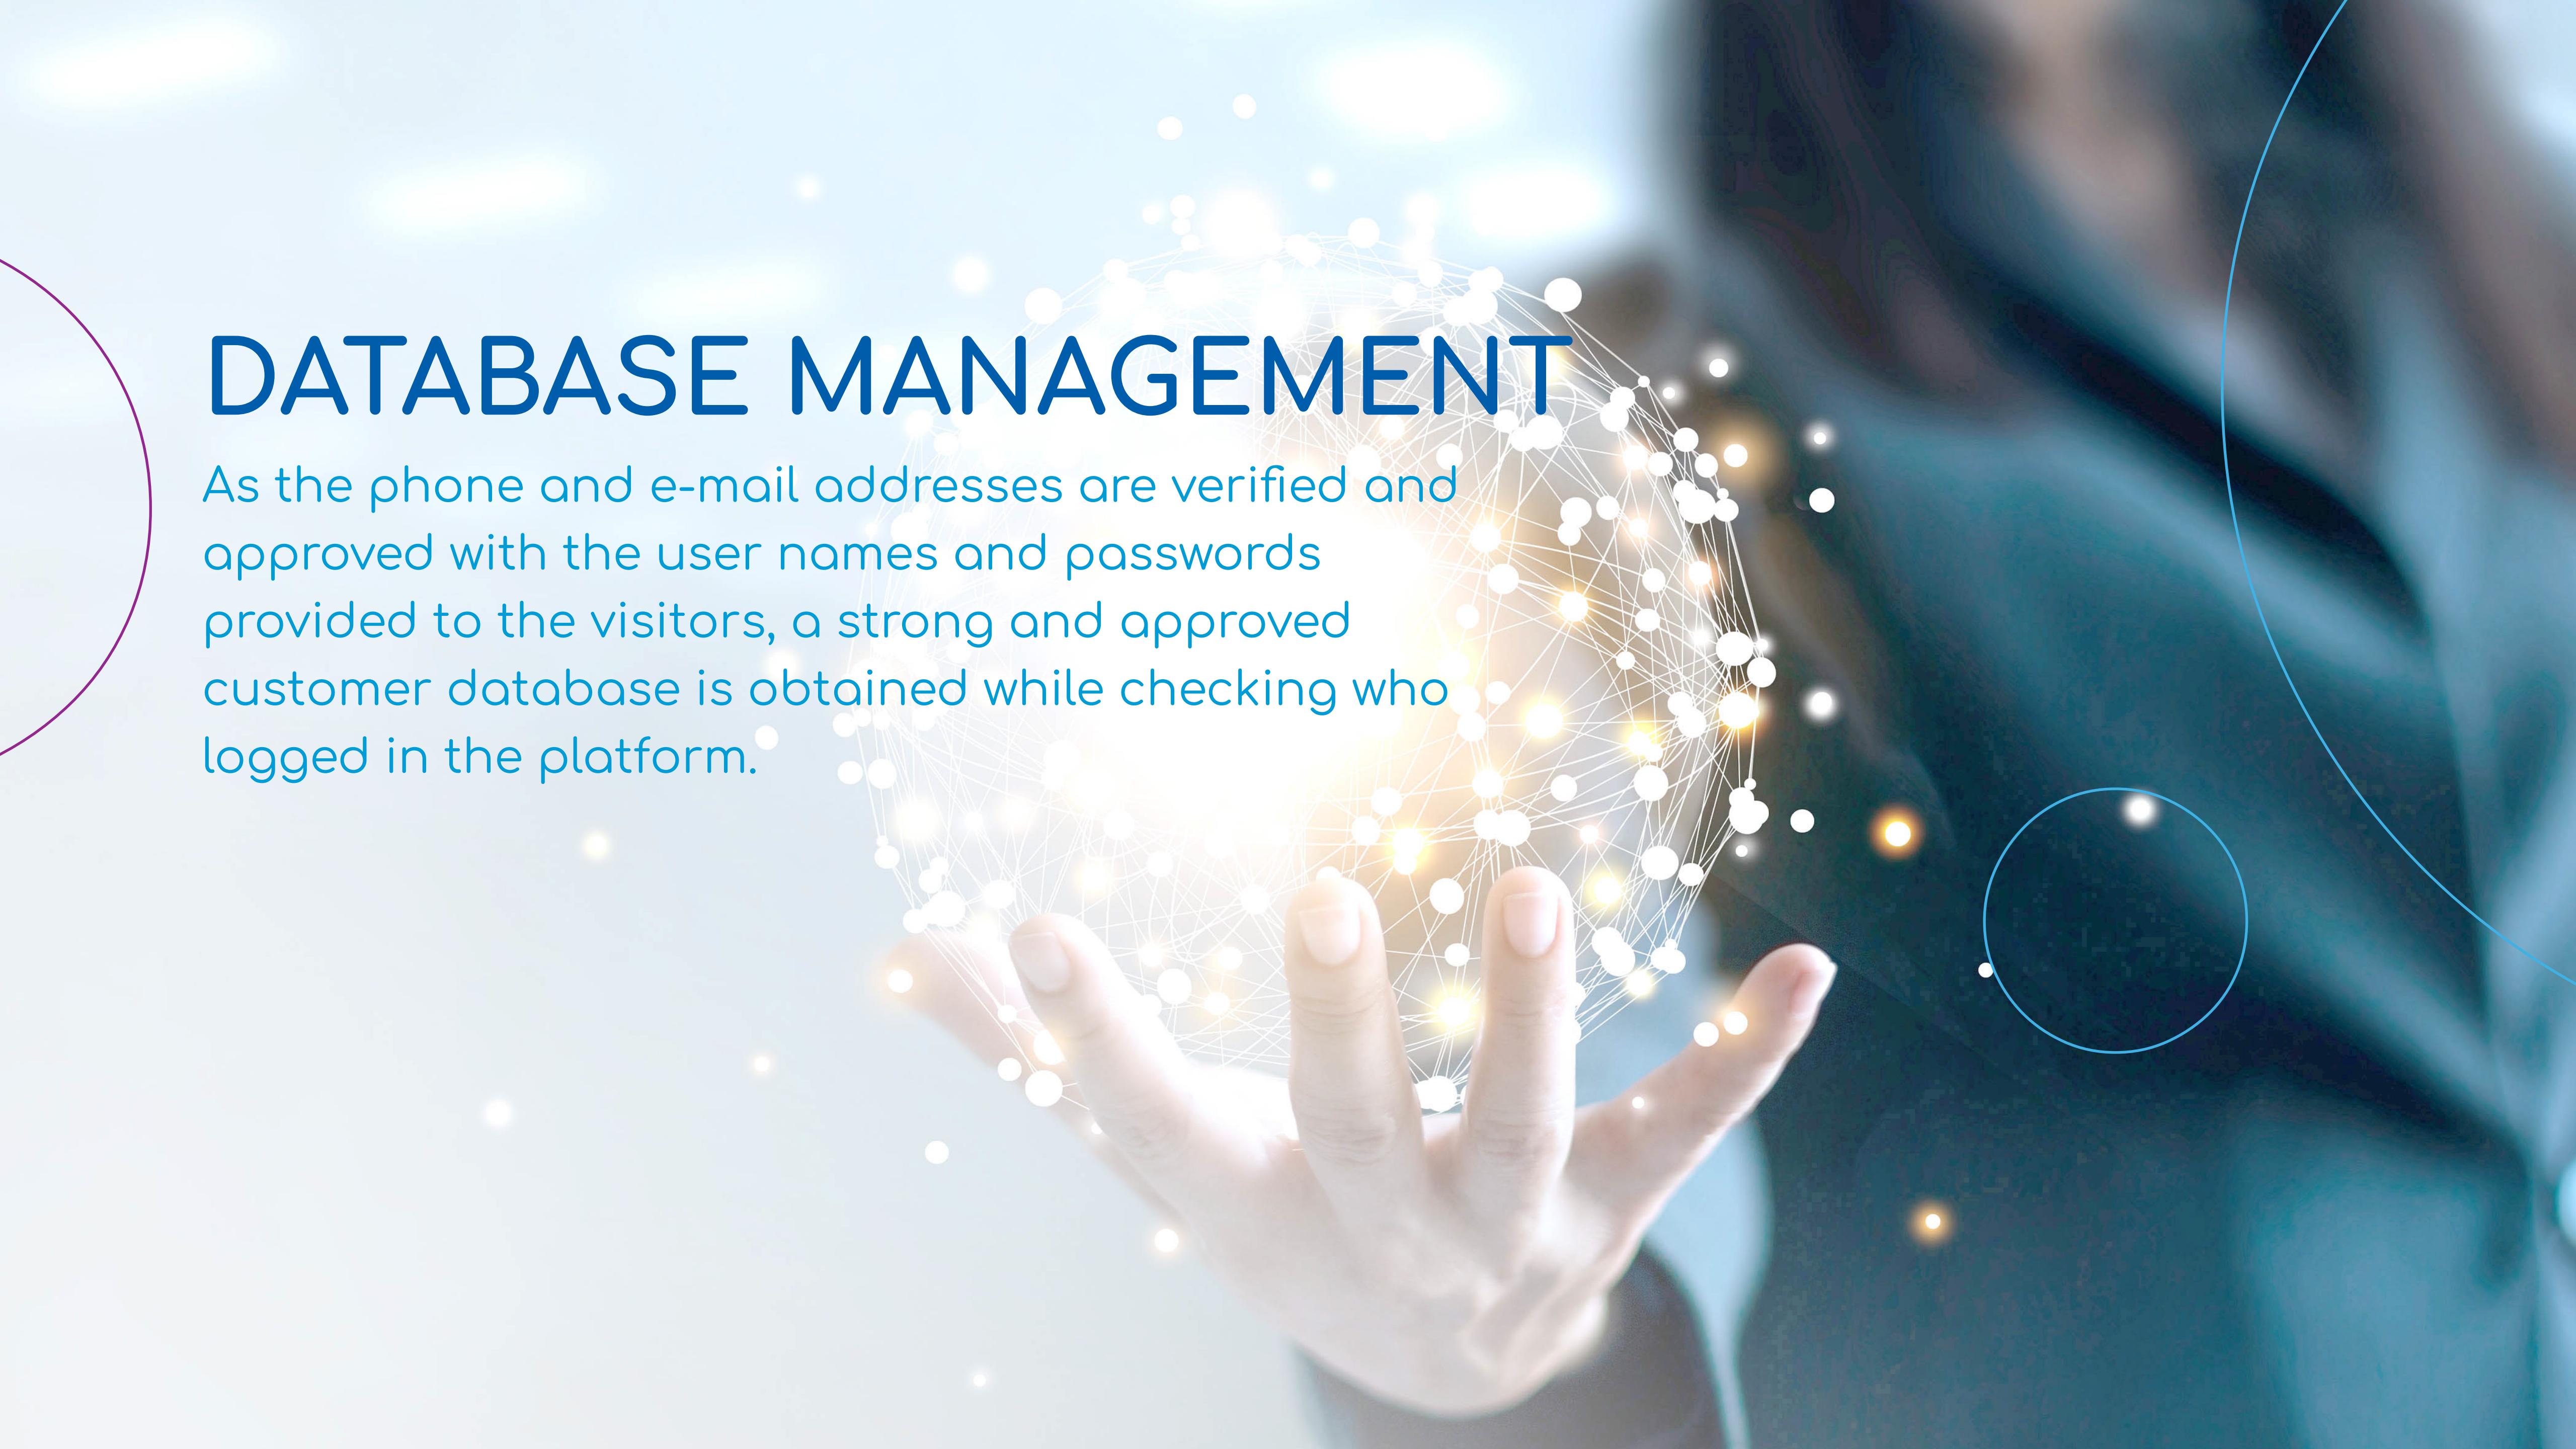

# SECURITY FIRST

The security problem faced in standard video conferencing applications is solved with MEET-ON thanks to high level firewalls and encryption systems. All broadcasts, one-to-one interviews and file sharing are **100%** protected thanks to the integrated security system.

MEET.ON

# DATABASE MANAGEMENT

As the phone and e-mail addresses are verified and approved with the user names and passwords provided to the visitors, a strong and approved customer database is obtained while checking who logged in the platform.

# COMPUTERS, TABLETS, PHONES

The platform provides error-free access from all PC or Mac desktop computers, as well as all mobile phones and tablets running on Android or iOS operating systems. All interaction can also be realized through the mobile application to be designed specifically for the event.

## USER FRIENDLY

The platform, which can be modified according to the needs of the event, provides easy access for visitors even with computer knowledge at beginning level, just as pressing a link. For more comprehensive applications, a short training, technical proficiency test and technical equipment, where necessary, are also provided to the speakers by MEET-ON teams in terms of providing continuity and quality of the event.

# CONVENTIONAL EVENT MANAGEMENT

All standard steps required by event management are also followed in virtual events and comprehensive event service is provided by MEET-ON experts.

- Sponsorship Management
- Social Media works
- PR Activities
